PERSONAL PROJECTS

MERN BLOG APPLICATION

Developed a full-stack, responsive MERN blog application featuring user authentication, CRUD operations, Google OAuth integration, Redux Toolkit for state management.

GAME STAGE MICROSERVICES

Built a microservices-based Game Stage application using Node.js, gRPC, GraphQL, REST, Kafka, and SQLite; features CRUD operations, and enables flexible querying and data manipulation via GraphQL.

ASP.NET CORE PROJECT

Developed multiple web applications using ASP.NET Core MVC, including a Food Menu Web App, Google Docs Clone, and Stripe Web App, featuring model creation, database integration, and comprehensive UI functionalities.

MERN REAL ESTATE MARKETPLACE

Developed a full-stack, responsive MERN real estate marketplace, implementing JWT authentication, advanced search functionality and Redux Toolkit for state management.
